Teleconference Agenda

Applicant's representative would like to discuss the Ogasawara citation. Particularly, the Examiner states that Ogasawara teaches setting a user preference in a customer profile that specified one or more database of a plurality of databases to which an electronic receipt is sent.

We feel that the cited passage does not describe any technique for setting a user preference including one or more databases for any purpose, specifically for sending an electronic receipt to the one or more databases specified in the customer profile.
